

Treatment plant – Q10 Exclusive Lifting Program

Anti-Aging Exlusive treatment

Special, energizing, tightening and hydrating program. It provides vitality and intensive lifting effect. The treatment set can be used occasionally or as a treatment (once a week).

Field of application:

Designed for the regeneration and energization of inflexible, tired, sallow skin that is low on energy, harmed by light and requires special care. After the treatment, the skin is filled, it becomes tighter, more flexible, the face contour gets sharper. The skin becomes silky to the touch, soft, vital and generally more juvenile.

Aims of the treatment:

- 1 restoring normal circulation, thus increasing the skin's oxygen supply
- 2 activating the generation of new cells
- 3 improving skin turgor
- 4 reducing the depth of wrinkles
- 5 increasing skin hydration
- 6 boosting the metabolism

Process of treatment:

Cleansing:

Solanie Face Milk for Sensitive skin – SO20101

Perfume free cleansing emulsion. With the help of skin friendly and surface active ingredients totally and gently removes pollution or make up from facial areas. The ingredients insure that it can be used for all skin type.

Usage:

Clean the skin of contaminations with massage movements using the appropriate amount (a nut-sized amount for face, a walnut-sized amount for face, neck and décolletage) of the cream. You can apply the appropriate amount to two cotton pads or to the treated area using your fingers and palm, or you can put it into water in a little pot and apply it with a brush.

Treatment plant – Q10 Exclusive Lifting Program

Effects:

Odorless liquid emulsion. By means of its skin-friendly surfactant ingredients, it removes contaminants and make-up perfectly and gently from the facial skin. By virtue of its compounds, it can be used for all skin types.

Peeling:

Solanie Facial Peeling Cream – SO20106

It is a cream scrub that acts as chemical (fruit acid) and mechanical peeling (polyethylene particles). It has a skin smoothing effect, which can be increased with lipoamino acid, a special active ingredient on the surface agent cleaning the pores from deep inside.

Usage:

Apply the right amount of scrub to the moist skin surface (a pea-sized amount), scrub it lightly, and wait for few minutes for the fruit acid to take effect. You can enhance the mechanical effect by using a peeling brush, but the acid content of the product performs fine exfoliation on the skin surface per se. Remove the particles of the scrub with wet cloth or sponge, then tone the skin.

Effects:

A cream scrub that unites chemical (fruit acid) and mechanical peeling. Its skin smoothing effect is augmented by a special surfactant, lipoamino acid, that cleanses deep inside the pores. It cleans the skin of dead skin cells, thus rendering it smooth, hydrated and perfectly prepared to take in further active ingredients. The calming, regenerating effect of aloe, ginkgo, allantoin and panthenol prevents potential irritation. The grape seed oil content nourishes and precludes excessive degreasing. Its selected active ingredients and the fine, 50 micron sized polyethylene particles render the scrub suitable for every skin type.

Tonifying:

Solanie Phyto Tonic Lotion – SO20102

It refreshes and tightens the skin; a non-alcoholic tonic, a good cleanser that hydrates skin. We recommend it after use of face milk or scrub.

Usage:

Recommended every time after cleaning and scrubbing in order to restore pH levels in the skin. Apply the amount of one pump to two cotton pads placed on each other, then, separating them, perform toning on the face, neck and décolletage area.

Treatment plant – Q10 Exclusive Lifting Program

Effects:

Skin refreshing, tightening non-alcoholic tonic with good cleaning, hydrating and pH optimizing effect. Non-alcoholic, therefore usable by people with sensitive skin.

How to use the mask:

Solanie Q10 Exclusive lifting program – SO20701

Centella extract used during the treatment is an excellent cell recuperator that activates cell metabolic processes. Preregen® protects skin cell membranes against oxidative damage and maintains the elasticity of the skin. Coenzyme Q10 better utilized in tissues being made water soluble, strong free radical binder and anti-oxidant. Caffeine detoxicates and stimulates circulation. Skin softener and intensive nutrient Makadamia and Rose-hip oil replenishes the skin with valuable lipids. It doesn't contain allergen preservatives.

Professional usage:

The treatment set can be used occasionally or regularly (once weekly). Spread half of the Lotion contained in the set evenly on the skin. Imbibe the other half into the cloth mask and put it on the face. (Place the 'pill' into a little pot, and drip on it the remaining activating solution. Wait until the mask absorbs all the liquid (it swells). Thus you get a flexible, wet mask. Unfold the mask and apply it evenly, 'hermetically'.) After 15-20 minutes, take off the mask and spread the Creamfluid on the skin. The fluid can be used with ultrasound. Hand out the remaining part of the Creamfluid for home care for the sustainment of the condition between two treatments.

Effects:

A special energizing, tightening and hydrating program. It provides vitality and intensive lifting effect. It is designed to activate, regenerate and energize inflexible, tired, pallid, light-harmed skin that is low on energy and requires intensive nourishment and care. It produces visible results after only one treatment. Pores become finer, and the skin becomes more tight and lively. The synergic effect of the active ingredients contained in the ampoule provide for the improvement of blood supply and circulation, thus the oxygen uptake of the cells is increased. The energizing components accelerate the formation of new cells and strengthen skin turgor. The collagen tightens the collagen web, thus the depth of wrinkles is reduced. The increased hydration of skin layers and the more intense metabolism of the treated area also contribute to this effect. The active ingredients significantly reduce the harmful effects of free radicals.

Treatment plant – Q10 Exclusive Lifting Program

Ultrasound:

After removing the mask, apply the Lifting Fluid Cream (white ampoule) to the whole face (about half a vial) and perform a 5-minute-ultrasound treatment. Use the Moisturizing Hydromask to alipic skin type.

Solanie Moisturizing Hydromask – SO20302

As a face mask, it supplies the water necessity of skin in a short time. Its high aloe vera content fills up, smoothes, and gives a healthy color for one's skin.

Usage:

Apply the gel to the skin (2-3mm thick) with the help of your hand or a brush and perform a 5-minutes-ultrasound.

Tone the skin afterwards. Also recommended for iontophoresis. Recommended for ultrasound, with an extra active ingredient or alone.

Effects:

The ideal nourishing product for dehydrated skin. As a mask, it quickly compensates for the skin's lack of moisture. Its high Aloe Vera content loads, smoothes out, freshens the skin and gives it a healthy color. Biotin is a strong skin smoother. The sugar derivative pentavitin provides lasting hydration.

Massage:

Solanie Silk Touch Body & Massage Milk 500ml – SO20203

Massageable, high water content conditioner. The avocado oil has high unsaturated fatty acid content (vitamin F). Its phytohormone components assists the regeneration process.

Usage:

Apply the milk to the appropriately prepared skin surface, and perform face, neck, décolletage massage. (3-4 pumps in case of professional package). Can be combined with Lecithin Massage Cream, creating the optimal moisturizer-nourisher proportion for each individual skin type.

Effects:

Massage balsam with high water content. The high unsaturated fatty acid content of grape seed oil (Vitamin F) and phytohormone ingredients guarantee the regenerating effect. The avocado oil hydrates, reduces wrinkles, and calendula has exfoliating, anti-inflammatory, skin smoothing and wound healing effects. Excellent emulsion for neck, décolletage or full body massage of dry, seborrheic skin types.

Treatment plant – Q10 Exclusive Lifting Program

Eye-care:

Solanie Q10 Liposome Eye Zone Gelcream – SO20405

It is soft and well absorbed gel-cream with excellent consistence. It soothes and fills the small wrinkles around the eyes. Hyaluronic acid containing herbs diminish irritation, soften the development of „edematous eyes“.

Usage:

Putting it on under masks (up to the area of the whole face) or applying it with ultrasound can lead to a spectacular result. It can be effectively used in special treatments (eye, neck, lip wrinkle). Apply the cream around the eye (a pea-sized amount), then work it into the skin with cautious tapping motions. Use a greater amount in case of eye massage. Recommended for everyday use for costumers. Those with contact lenses can also safely use it.

Effects:

Soft, well absorbed skin gel with a pleasant texture. It soothes and fills up the wrinkles around the eyes. Hyaluronic acid has a high hydrating effect, and it creates a protecting and tightening coating on the skin surface. Liposome provides the stability of active ingredients and their way to the deeper layers of the skin. Herbs reduce irritation and the formation of eye bags; their regular use stops the formation of periorbital dark circles. Caffeine inhibits the functioning of elastin-decomposing enzymes. Its pH is identical to that of tears, thus it does not irritate the eyes. It can be used for costumers with sensitive eyes and allergy. It is quickly absorbed, does not leave an oily color, and provides an excellent base for makeup.

Nutrition:

Solanie Q10 Energizing Night Cream (if the treatment is finished in the evening)-SO20404

This nourishing cream has high lipid content and has a combination of special components. Q10 coenzyme's energy guarantees renewal of skin cells at night. It enhances the skin's endurance, and slows down the aging process.

Usage:

Apply the cream around the face (a pea-sized amount) with massaging movement. When massaging, you can intensify the nourishing, smoothing effect with Lecithin massage cream.

Effects:

Treatment plant – Q10 Exclusive Lifting Program

Nourishing cream with high lipid content and special compounds. It secures the nightly regeneration of skin tissues with the power of Q10 coenzyme, increases the skin's resistance and delays aging. Squalane and cholesterol, obtained from olive oil, are important compounds of skin lipids; they contribute to the skin's flexibility and resistance. Wheat germ-biovector strengthens the skin's own collagen-synthesis. Fat-soluble vitamins secure night regeneration. The soft cream (w/o emulsion) facilitates the deep absorption and long-lasting effect of active ingredients.

Solanie Aloe moisturizing day cream 250ml – SO20402

Modern formulation (non allergic) of soft, easily spreadable half oily cream with light filter (titanium dioxide). It is advised for the dry skin that needs water replacement and protection during the day.

Usage:

Apply the cream around the face (a pea-sized amount) with massaging movement. In case of massage, it can be combined with massage milk or massage cream.

Effects:

Soft, easily spreadable, well absorbed, modern (not allergen) half-fat cream with physical sunscreen (titanium dioxide). It is excellently suitable for the daytime care and protection of dry, water deficient skin. The high unsaturated fatty acid content of avocado oil helps skin regeneration. Pentavitin and NMF provide appropriate hydration. Aloe vera, allantoin and panthenol protect from irritation, soothe and regenerate. By virtue of its UV filter content, it protects the skin from harmful sun radiation when used during daytime.
