

Treatment of alipic skin

Characteristics:

- Pale but fresh skin
- Tightly clogged pores, skin is slightly rough to the touch
- Comedo (blackhead) can only be found occasionally (only at the base of the nose)
- A slight scalling can be observed on the skin surface
- Flexible
- It reacts to extreme weather conditions with reddening
- The sebum and oil production is reduced, causing the composition of the emulsion of the skin change, so the skin cannot prevent water loss
- Thus, the fatty acid deficiency entails water loss
- Possible capillary dilatations (inclination)

Aim of treatment:

- Restore normal fatty acid balance
- Restore the hydration of the stratum corneum
- Eliminate the inflammation that might occur

Process of treatment:

Cleansing:

Solanie Face Milk for Sensitive Skin – SO20101

Perfume free cleansing emulsion. With the help of skin friendly and surface active ingredients totally and gently removes pollution or make up from facial areas. The ingredients insure that it can be used for all skin type.

Usage:

Clean the skin of contaminations with massage movements using the appropriate amount (a nut-sized amount for face, a walnut-sized amount for face, neck and décolletage) of the cream. You can apply the appropriate amount to two cotton pads or to the treated area using your fingers and palm, or you can put it into water in a little pot and apply it with a brush.

Effects:

Odorless liquid emulsion. By means of its skin-friendly surfactant ingredients, it removes contaminants and make-up perfectly and gently from the facial skin. By virtue of its compounds, it can be used for all skin types.

Treatment of alipic skin

Peeling:

Solanie Facial Peeling Cream – SO20106

It is a cream scrub that acts as chemical (fruit acid) and mechanical peeling (polyethylene particles). It has a skin smoothing effect, which can be increased with lipoamino acid, a special active ingredient on the surface agent cleaning the pores from deep inside.

Usage:

Apply the right amount of scrub (pea-sized amount) to the moist skin surface, scrub it lightly, and wait for few minutes for the fruit acid to take effect. You can enhance the mechanical effect by using a peeling brush, but the acid content of the product performs fine exfoliation on the skin surface per se. Remove the particles of the scrub with wet cloth or sponge, then tone the skin.

Effects:

A cream scrub that unites chemical (fruit acid) and mechanical peeling. Its skin smoothing effect is augmented by a special surfactant, lipoamino acid, that cleanses deep inside the pores. It cleans the skin of dead skin cells, thus rendering it smooth, hydrated and perfectly prepared to take in further active ingredients. The calming, regenerating effect of aloe, ginkgo, allantoin and panthenol prevents potential irritation. The grape seed oil content nourishes and precludes excessive degreasing. Its selected active ingredients and the fine, 50 micron sized polyethylene particles render the scrub suitable for every skin type.

Tonifying:

Solanie Phyto Tonic Lotion – SO20102

It refreshes and tightens the skin; a non-alcoholic tonic, a good cleanser that hydrates skin. We recommend it after use of face milk or scrub.

Usage:

Recommended every time after cleaning and scrubbing in order to restore pH levels in the skin. Apply the amount of one pump to two cotton pads placed on each other, then, separating them, perform toning on the face, neck and décolletage area.

Effects:

Treatment of alipic skin

Skin refreshing, tightening non-alcoholic tonic with good cleaning, hydrating and pH optimizing effect. Non-alcoholic, therefore usable by people with sensitive skin.

Hydration:

Solanie Skin nectar No.5 Vitamin C Serum – SO30515

The vitamin C derivative intensely stimulates the formation of new collagen, it slows the aging process and makes the skin resistant. Significantly improves the appearance of the skin's surface. Prevents water loss. Nourishes, helps flexibility, binds free radicals.

Usage:

Spread 3 drops of serum on the face (6 drops needed for face+neck+decollete) and with a gentle tapping movement massage it onto the skin.

It is the regenerator of dim, lifeless, alipic skin showing signs of aging (e.g. age spots). For face, neck, décolletage, eye area and hand. Regular use (morning, night) is necessary!

- *Can be used with ultrasound with Solanie Hydrating gel mask or ultrasound gel.*
- *For massage.*

Effects:

The fat-soluble derivative of vitamin C intensively stimulates the formation of new collagen fibers, delays the aging process, increases the skin's resistance. It significantly improves the skin's appearance. It inhibits water loss. It is nourishing, it increases flexibility and binds free radicals.

Mask to be used with ultrasound device:

Solanie Energizing mask for dry skin – SO20306

Recommended for alipic skin. The oil and vitamin contents nourish, fill and smooth the skin. Wheat germ biovector strengthens the skin's own collagen synthesis, the high unsaturated fatty acid and phytohormone content of grape seed oil help regeneration. Q10 coenzyme augments the skin's resistance, delays the aging process, helps the regeneration of skin tissues. Pentavitin and NMF factor provide appropriate hydration. Biotin has a skin smoothing effect.

Treatment of alipic skin

Usage:

Apply the mask evenly to the cleansed skin surface (face, neck and décolletage). Wash it off after 15-20 minutes and tonify the skin. In case of intensive vitalizing, anti-wrinkle treatment, a stronger, more spectacular result can be achieved by applying the mixture of Q10 eye wrinkle gel or Hydrating gel mask and Energizing mask with ultrasound.

Effects:

This mask helps perfectly supplement the lack of water and oil, the skin becomes soft and hydrated.

Massage:

Solanie Lecithin Massage Cream – SO20201

Rich in herbal oils and nutrients, meant to be used as a massaging cream mainly on mature, alipic and dehydrated skin. Noticeably smoothes and refills the treated area because of its coconut oil, avocado oil and useful vitamin components (Vitamin A,E,F).

Usage:

Apply the appropriate amount of massage cream (1 nut-sized amount for face, and 2 nut-sized amount for face and décolleté) to the previously cleaned, scrubbed, toned skin surface. Combining it with Vapozon intensifies the absorption and the skin smoothing effect. The cream can be mixed with Neck-décolletage and Body care milk in various proportions, thus lightening the cream's density to an individual and personalized degree. Wipe off the non-absorbed cream from the skin and tone.

Effects:

Plenteous in oils and nutrients, primarily designed for massaging mature dry skin. The oil content, avocado oil, coconut oil, and Vitamin E visibly smoothen and fill up in the treated area of skin. The shorea butter enhances the resistivity of the skin. Allantoin and panthenol help regeneration, while making the skin silky and smooth. Urea substitutes the wet phase, helping the preservation of the natural moisture of the skin. The soy lecithin content is an excellent skin nourishing, moisturizing, emulsifier, skin-friendly substance. The long-lasting lubricity of the massage cream is guaranteed by the coconut oil content, thus you can easily use it to perform a 30-minute-long relax massage.

This massage cream is perfect for mixing in different rate with Neck- Décolleté and Body Milk, we can ease the consistence of the cream to make it personalized. Wipe the unabsorbed cream off the skin, then tonify.

Treatment of alipic skin

Eye care:

Solanie Q10 Liposome Eye Zone Creamgel – SO20405

It is soft and well absorbed gel-cream with excellent consistence. It soothes and fills the small wrinkles around the eyes. Hyaluronic acid containing herbs diminish irritation, soften the development of „edematous eyes”.

Usage:

Putting it on under masks (up to the area of the whole face) or applying it with ultrasound can lead to a spectacular result. It can be effectively used in special treatments (eye, neck, lip wrinkle). Apply the cream around the eye (a pea-sized amount), then work it into the skin with cautious tapping motions. Use a greater amount in case of eye massage. Recommended for everyday use for costumers. Those with contact lenses can also safely use it.

Effects:

Soft, well absorbed skin gel with a pleasant texture. It soothes and fills up the wrinkles around the eyes. Hyaluronic acid has a high hydrating effect, and it creates a protecting and tightening coating on the skin surface. Liposome provides the stability of active ingredients and their way to the deeper layers of the skin. Herbs reduce irritation and the formation of eye bags; their regular use stops the formation of periorbital dark circles. Caffeine inhibits the functioning of elastin-decomposing enzymes. Its pH is identical to that of tears, thus it does not irritate the eyes. It can be used for costumers with sensitive eyes and allergy. It is quickly absorbed, does not leave an oily color, and provides an excellent base for makeup.

Nutrition:

Solanie Q10 Energizing Night Cream – SO20404

This nourishing cream has high lipid content and has a combination of special components. Q10 coenzyme's energy guarantees renewal of skin cells at night. It enhances the skin's endurance, and slows down the aging process.

Usage:

Spread out a pea-sized amount of cream in the whole face area with massaging movements.

When massaging, you can intensify the nourishing, smoothing effect with Lecithin massage cream.

Effects:

Nourishing cream with high lipid content and special compounds. It secures the nightly regeneration of skin tissues with the power of Q10 coenzyme, increases the skin's

Treatment of alipic skin

resistance and delays aging. Squalane and cholesterol, obtained from olive oil, are important compounds of skin lipids; they contribute to the skin's flexibility and resistance. Wheat germ-biovector strengthens the skin's own collagen-synthesis. Fat-soluble vitamins secure night regeneration. The soft cream (w/o emulsion) facilitates the deep absorption and long-lasting effect of active ingredients.

Solanie Aloe Moisturizing Day Cream – SO20402

Modern formulation (non allergic) of soft, easily spreadable half oily cream with light filter (titanium dioxide). It is advised for the dry skin that needs water replacement and protection during the day.

Usage:

Spread out a pea-sized amount of cream in the whole face area with massaging movements.

In case of massage, it can be combined with massage milk or massage cream.

Effects:

Soft, easily spreadable, well absorbed, modern (not allergen) half-fat cream with physical sunscreen (titanium dioxide). It is excellently suitable for the daytime care and protection of dry, water deficient skin. The high unsaturated fatty acid content of avocado oil helps skin regeneration. Pentavitin and NMF provide appropriate hydration. Aloe vera, allantoin and panthenol protect from irritation, soothe and regenerate. By virtue of its UV filter content, it protects the skin from harmful sun radiation when used during daytime.

Covering:

Solanie Ultra Stepy Therapy Lotion – SO10918

Because of its components, it disinfects perfectly, heals the skin and normalizes sebum production. It blocks P. acnes bacteria that induce acne, and skin becoming infected. Applying it more often would erase the visible signs of aging and cosmetic flaws of the treated area.

Usage:

For the finishing, last phase of cosmetic treatments.

Due to its composition the customer leaves with a „medical foundation“.

Effects:

Its high alcohol content decontaminates and dries immediately; its various bactericide components (dichlorobenzyl alcohol, salicylic acid, phenethyl alcohol), penetrating into deep skin layers, have long-lasting effects. The anti-greasing, keratoplastic, normalizing substances (colloidal sulfur, biotine, zinc PCA, allantoin) improve skin image, quicken

Treatment of alipic skin

would healing; pigment suspension effectively conceals skin imperfections. By virtue of its composition, it perfectly decontaminates, soothes the skin, normalizes sebum. It inhibits the life conditions of bacteria responsible for acne. It renders the skin perfectly soft and smooth. It makes the application of makeup easier. After multiple applications, by virtue of its perfect concealing capability, it hides the apparent signs of inflammation and the cosmetic imperfections of the treated area.
