

Exclusive Caviar Treatment

Caviar is extremely rich in effective physiological materials (essential amino-acids, proteins, peptides, trace elements, essential fatty acids and other vital components), so when applied in the proper formulation, it has a dynamically refreshing, activating and energizing effect in cosmetic treatment. It almost has a skin-doping effect.

Applicability:

It is a vitality enhancing wrinkle-treating program designed to treat dehydrated, highly sensitive, aging, nutrient deficient skin damaged by environmental impact.

Thanks to its composition and novel texture, its penetration into the skin is highly effective. A spectacular, long-lasting and effective treatment is provided.

Aim of treatment:

- restoration of skin hydration
- returning the appropriate amount of oil for the production of emulsion on the skin's surface
- increasing the turgidity of the skin
- refining the skin tone
- reducing erythema that may occur
- reducing wrinkles
- restoration of the skin's vitality

Process of the treatment:

Cleansing:

Solanie Face Milk for Sensitive Skin – SO20101

Perfume free cleansing emulsion. With the help of skin friendly and surface active ingredients totally and gently remove pollution or make up from facial areas. The ingredients ensure that it can be used for all skin type.

Usage:

Clean the skin from contaminations with massage movements using the appropriate amount (a nut-sized amount for face, a walnut-sized amount for face, neck and décolletage) of the cream. You can apply the amount with two cotton pads or use your fingers and palms, or you can put it into water in a little pot and apply it with a brush.

Treatment plan - Exclusive Caviar

Effects:

Odorless liquid emulsion. By means of its skin-friendly surfactant ingredients, it removes contaminants and make-up perfectly and gently from the facial skin. By virtue of its compounds, it can be used for all skin types.

Peeling:

Solanie Facial Peeling Cream – SO20106

It is a cream scrub that acts as chemical (fruit acid) and mechanical peeling (polyethylene particles). It has a skin smoothing effect, which can be increased with lipoamino acid, a special active ingredient on the surface agent cleaning the pores from deep inside.

Usage:

Apply the right amount of scrub to the moist skin's surface (a pea-sized amount), scrub it lightly, and wait few minutes for the fruit acid to take effect. You can enhance the mechanical effect by using a peeling brush, but the acid content of the product performs fine exfoliation on the skin surface per se. Remove the particles of the scrub with wet cloth or sponge, then tone the skin.

Effects:

A cream scrub that unites chemical (fruit acid) and mechanical peeling. Its skin smoothing effect is augmented by a special surfactant, lipoamino acid, that cleanses deep inside the pores. It cleans the skin of dead skin cells, thus rendering it smooth, hydrated and perfectly prepared to take in further active ingredients. The calming, regenerating effect of aloe, ginkgo, allantoin and panthenol prevents potential irritation. The grape seed oil content nourishes and precludes excessive degreasing. Its selected active ingredients and the fine, 50 micron sized polyethylene particles render the scrub suitable for every skin type.

Toning:

Solanie Phyto Tonic Lotion – SO20102

It refreshes and tightens the skin; a non-alcoholic tonic, a good cleanser that hydrates skin. We recommend it after use of face milk or scrub.

Usage:

Recommended every time after cleansing and scrubbing in order to restore pH levels in the skin. Apply the amount of one pump to two cotton pads placed on each other, then, separating them, perform toning on the face, neck and décolletage area.

Treatment plan - Exclusive Caviar

Effects:

Skin refreshing, tightening non-alcoholic tonic with good cleaning, hydrating and pH optimizing effect. Non-alcoholic, therefore usable by people with sensitive skin.

Using the Exclusive Caviar set – SO20601:

The set is used for occasionally or regularly (once a week).

Its extracts are from famous Russian caviar. From the caviar, the water based extracts are used for the blue color active lotion (used for masks), and soluble substances are put in the cream – fluid ampoules. This way, everything that caviar can offer is used efficiently.

The caviar is extremely rich in life supporting substances (essential amino acids, protein, peptides, trace elements, essential fatty acids, and other vital components), this ensures that using it in the right combination energizes, refreshes and activates the skin. In facial treatment acts as a skin dope. Strengthening the spectacular result, to make it durable, the treatment is containing several enhancer ingredients beside the caviar extracts.

Course of treatment:

Apply 1/3rd of the lotion (blue liquid) included in the pack evenly on the skin. Absorb another 1/3rd of the lotion with the mask and then place the mask onto your face. After the 15-20 minutes exposure time, take the mask off and apply 1/3rd of the cream fluid on the skin. The fluid may be used with ultrasound; it is recommended to be used together with the hydrating gel mask.

Effects:

The products are part of a focused wrinkle eliminator (Anti-Aging) program that has extraordinary regenerating potential. Based on its components and newly developed texture, its ability to be absorbed by the skin is efficient. Its use results in a noticeably long lasting and successful treatment.

The water absorption of the skin is increased, the metabolism speeds up, thereby the skin becomes completely smooth and renewed.

It successfully lessens the appearance of fine wrinkles, and delays the aging process. It is suggested to be used for skin that is inflexible, or damaged by light, pale, exfoliated, dehydrated or wrinkled.

Ultrasound:

Solanie Moisturizing Hydromask – SO20302

As a face mask, it supplies the water necessity of skin in a short time. Its high aloe vera content fills up, smooths, and gives a healthy color for one's skin.

Treatment plan - Exclusive Caviar

Usage:

Apply the gel to the cleared, brushed, toned skin (1-2mm thick). In 10-15 minutes, the mask is thoroughly absorbed by skin. Tone the skin afterwards. Also recommended for iontophoresis. Recommended for ultrasound, with an extra active ingredient or alone.

In case of mechanical treatment, apply the mask 2-3mm thick.

Effects:

The ideal nourishing product for dehydrated skin. As a mask, it quickly compensates for the skin's lack of moisture. Its high Aloe Vera content smoothes out, freshens the skin and gives a healthy color. Biotin is a strong skin smoother. The sugar derivative pentavitin provides long lasting hydration.

Massage:

Solanie Silk Touch Body & Massage Milk – SO20203

Massageable, high water content conditioner. The avocado oil has high unsaturated fatty acid content (vitamin F). Its phytohormone components assists the regeneration process.

Usage:

Apply the milk to the appropriately prepared skin surface (3-4 pump in case of cabin packing), and perform face, neck, décolletage massage. Can be combined with Lecithin Massage Cream, creating the optimal moisturizer-nourisher proportion for each individual skin type.

Effects:

Massage balsam with high water content. The high unsaturated fatty acid content of grape seed oil (Vitamin F) and phytohormone ingredients guarantee the regenerating effect. The avocado oil hydrates, reduces wrinkles, and calendula has exfoliating, anti-inflammatory, skin smoothing and wound healing effects. Excellent emulsion for neck, décolletage or full body massage of dry, seborrheic skin types.

Nutrition:

Solanie Q10 Liposome Eye Zone Gelcream – SO20405

It is soft and well absorbed gel-cream with excellent consistence. It soothes and fills the small wrinkles around the eyes. Hyaluronic acid containing herbs diminishes irritation, softens the development of „edematous eyes”.

Treatment plan - Exclusive Caviar

Usage:

Putting it on under masks (the whole area of the face), or applying it with ultrasound can lead to a spectacular result. It can be effectively used in special treatments (eye, neck, lip wrinkle).

Apply the cream around the eye (pea-sized amount), and tap it carefully into the skin. In case of eye massage use a little bit larger quantity.

Recommended for everyday use for costumers. Those with contact lenses can also safely use it.

Effects:

Soft, well absorbed skin gel with a pleasant texture. It soothes and fills up the wrinkles around the eyes. Hyaluronic acid has a high hydrating effect, and it creates a protecting and tightening coating on the skin's surface. Liposome provides the stability of active ingredients and their way to the deeper layers of the skin. Herbs reduce irritation and the formation of eye bags; their regular use stops the formation of periorbital dark circles. Caffeine inhibits the functioning of elastin-decomposing enzymes. Its pH is identical to that of tears, thus it does not irritate the eyes. It can be used for costumers with sensitive eyes and allergy. It is quickly absorbed, does not leave an oily color, and provides an excellent base for makeup.

Solanie Caviar exclusive day cream – SO10601

Used for intensive course of treatment of alipic, sensitive and dehydrated skin in need of nutriments and manifesting the signs of aging. Valuable active and nutritive ingredients of caviar renew the tired, sun damaged, dehydrated skin.

Usage:

Spread out a pea-sized amount in the whole face with massaging movements.

Recommended for the end of the caviar treatment, as a finishing touch.

Effects:

Soft-textured cream designed for the intensive treatment of alipic, dehydrated, highly sensitive skin that shows signs of premature aging and requires nutrients. The caviar content's effective physiological active ingredients rejuvenate, fill and vitalize the pallid, tired, sunshine-harmed, dehydrated, wrinkled skin. The combination of the ceramides improves the flexibility of the skin and the protection of the epidermis. Its valuable grease-forming components strengthen and nourish the structure of the skin with important lipids. It pleasantly soothes, it can be excellently used on sensitive skin as well. The UV filter provides appropriate protection from the harmful radiation of the sun.

Solanie Caviar Exclusive Night Cream – SO10602

This essence has been created for the intensive treatment of skins manifesting signs of aging and which are in need of nutriments, are alipic, stressed and without energy. Actifirm extract improves tightness of skin, increases elasticity of collagen fibers thus smoothing wrinkles. White tea extract is strongly antioxidant, it helps regeneration and detoxification. High value, vitamin rich plant oils provide night nutrition and regeneration of skin tissues.

Usage:

It is excellently suitable for massage during the treatment, it can be used with ultrasound.

Spread out a pea-sized amount in the whole face with massaging movements.

Effects:

Nourishing cream recommended for the intensive treatment of alipic, dehydrated, stressed, slack skin that shows signs of aging and requires nutrients. The Actifirm extract improves tightness of the skin and the flexibility of collagen fibers, thus wrinkles are smoothed out. The South African yam root extract, which contains the powerful phytohormone, improves the overall condition of hormone-deficient skin, substitutes for estrogen deficiency in mature skin, and delays the aging processes of tissues. It helps the skin's immune processes, strengthens its protective capability; it has a strong soothing and anti-inflammatory effect. The caviar extract contains vital proteins, trace elements that have a strong nourishing and energizing effect. The white tea extract is a strong anti-oxidant; it helps regeneration and detoxification. The night nourishment and regeneration of the skin tissues are provided for by valuable plant oils rich in vitamins. Creatine, providing for the revitalization of the energy metabolism of the cells, and the skin-soothing, sensitivity-reducing bisabolol (the colorless active ingredient in chamomile) complete the wide range of active ingredients for the complete treatment of demanding skin. The well spreadable, quickly absorbed cream contains no preservatives, so it is also recommended for our allergic costumers. The microbicide effect is provided for by the contained fragrance components.
