

## **Solanie MezoPeptide – Needle free skin rejuvenation training**

**Our goal is to introduce you to the most advanced cosmetic NNR (No Needle Rejuvenation) technique, with its peptide-based treatment protocol that offers you the effectiveness of mesotherapy treatments without damaging the skin.**

**Peptides – the amino acid chains that creates the proteins.**

**They are essential in every organism, since they are involved in almost every process. They help regulate body functions, reduce inflammations, and enhance antioxidant effects furthermore they play a key role in transportation and communication. Perhaps, the easiest way to think of peptides is as messengers. They carry information between the cells-**

**As technology evolves, peptides synthesized from plants have the potential to support the body in cosmetic treatments at the cellular level in its structuring, regenerating processes.**

**Solanie NNR (No Needle Rejuvenation) system is an excellent tool for treating basic skin problems effectively with peptide complexes and several special active ingredients without injuring the skin.**

### **Solanie No Needle treatment:**

- 1. Innovative peptide ingredients – as a base**
- 2. The peptides are supported by active structure building components - synergy**
- 3. The result oriented protocol based on traditional program - tradition**

**Get to know the 3 steps; change your focus and use these new products; and get the same result as with a needle-free mesotherapy.**

### **1. Innovative peptide ingredients – as a base**

**NEODERMYL®**

**Neodermyl™ increases the synthesis of Pro-collagen I in a dose dependent way. Aged fibroblasts show even better ratio of production compared to young fibroblasts. Neodermyl™ increases the quantity of total collagen in 2 weeks. Claims: Anti-wrinkle, youth collagen booster, firms, re-densifies, energizes.**

## MATRIXYL 3000®

Matrixyl®3000 supports the activation of the cutaneous repair process, and in particular at the level of the fragile and UV-damage prone papillary dermis. Matrixyl®3000 promotes wrinkle smoothing and improves tone and elasticity.

## TELANGYN®

Takes out the thread of redness. This tetrapeptide reduces redness of face caused by an inflammatory reaction.

### Mechanism of action

It inhibits the inflammatory effect of LL-37 through reducing the release of interleukins (IL-6 and IL-8), caused by overactivation of LL-37. It also has a photoprotective effect that reduces cell damage and the harmful effects of skin inflammation.

### Cosmetic Benefits

Redness, dilated blood vessels and hyperpigmentation, are visibly reduced. The red areas are less numerous and large and its intensity is weakened. The skin is more uniform and less marked.

## RUBIXYL®

Upholding skin's receptors to reverse signs of aging

Key receptors are controlling the evolution of skin and its aging.

Rubixyl® activates and maintains the expression of these receptors to:

- 1) Stimulate the expression of skin barrier markers reinforces barrier and recovers hydration in mature skin;
- 2) Reactivate skin cells' differentiation markers reduces the deep wrinkles associated with crow's feet and increases smoothness.

Rubixyl® shows high clinical efficiency within 2 to 8 weeks.

## ARGIRELINE®

ARGIRELINE® reduces the depth of wrinkles on the face caused by the contraction of muscles of facial expression, especially in the forehead and around the eyes.

ARGIRELINE® is a safer, and milder alternative to Botulinum Toxin, topically targeting the same wrinkle-formation mechanism in a very different way.

## LEUPHASYL®

Pentapeptide-18 that mimics the natural path of enkephalins, acting on expression wrinkles formation in a new way. This alternative mechanism offers compatibility with other anti-wrinkle peptides, providing an additive and synergistic effect.

Leuphasyl peptide reduces the depth of wrinkles caused by the contraction of muscle of facial expression, decreasing neuron excitability and modulating acetylcholine secretion. The diminution of wrinkles increase with Argireline peptide, due to their additive effects.

## SUPPORTING PEPTIDES WITH ACTIVE STRUCTURAL INGREDIENTS – SYNERGIES

### ACTIFIRM ULTRA®

Combination of 3 herbal extracts that increase and protect skin building elements like collagen, elastin and hyaluron.

Centella Asiatica extract: inflammatory activates collagen production

Rosemary extract: antioxidant, calming due to its polyphenol content, it is an elastase enzyme inhibitor

Echinacea extract: due to its polyphenol fractions, it is a hyaluronidase inhibitor

Wrinkle visibility is reduced by 21.5% in 2 weeks and -41.9% in 8 weeks.

### NIACINAMID

Niacinamide (Vitamin B3), which has a beneficial effect on problematic skin and is able to help with acne, sebum overproduction, redness, inflammation, hyperpigmentation. It strengthens the skin's natural barrier, improves skin tone and increases its water content.

### HYSILK®- 150-450 kDa molecular weight

Reduces sebum production by 27%

Reduces skin unevenness by 11%

Increases hydration by 12% by increasing intercellular communication

Increases lipid production in stratum corneum

### HYACTIVE®- 20-150 kDa molecular weight

Reduces wrinkles by 26%

Reduces skin pore size by 34%

Increases hydration by 27%

In vitro studies have established the stimulation of collagen synthesis, activation of the transglutaminase enzyme and reduced MMP activity.

Together, they help restore the extracellular matrix, increasing its volume and stabilizing it. These synergistic processes enhance and reduce later the appearance of wrinkles on the treated skin.

## BETAIN

When the skin is exposed to external aggressions (UV radiation, heat or cold conditions), the water of the skin cells loses its balance. GENENCARE® OSMS BA protects the skin, not only by preventing drying out cells but also by denaturing skin proteins.

## EASYLIANCE®

Optimal blend of hydrolyzed polysaccharide and Acacia Gum. It forms a protective net over the skin surface.

## STEP-BY-STEP

### **Cleansing:**

Cleanse the skin according to skin type with milk or micellar lotion etc...

### **Peeling:**

Apply the Pro Fine Enzyme Peeling on cleansed, damp skin, leave the area around the eye out. With wet hand gently massage it onto the skin and depending on the skin's sensitivity level leave it on for 1-3 minutes, then rinse it well with water.

### **Tonifying:**

Pour tonic according to skin type on a cotton ball and apply it on the skin.

### **Applying the active ingredients:**

Mix 16 drops of elixir with 2 drops of ultrasonic gel, apply it on the skin and perform 4-5 minutes ultrasonic treatment or galvanic treatment (alternate negative and positive poles).

### **Massage:**

In a moderately thick layer apply Pro Firm Recovering 3 Peptide mask on the cleansed face, leave the area around the eye and mouth out. After 10-15 minutes with damp fingers massage the skin, then rinse it off. You can use hot and cold hammer too, especially in the winter season or in case of more delicate skin.

### **Alginate (Occlusive) mask:**

Choose one of the Solanie alginate peeling masks according to skin type. Add 20-25ml luke warm water to one pouch of alginate mask, mix it with fast and strong movements until it becomes into a homogeneous mixture. Apply it on the cleansed face, leave the area around the eye and mouth out. After 15

minutes remove the mask in one piece. If there is any residue on the face cleanse it with a damp towel. In case you want to use the mask in more installments, always use 1 part powder and 3 parts water. Do not forget the mixture rate.

**Finishing the treatment:**

Use Peptide-In Booster Ceramid 24 cream or Peptide-In Booster Ceramid 24 Plus cream.

Item code	Product name	Amount to be used
SO10110	Solanie Micellar cleanser and make-up remover 150 ml	2ml
SO10910	Solanie Aloe Vera Intensive Cleansing Foam 200 ml	2ml
SO21200	Solanie Pro Fine Enzyme Peeling Gel 125ml	2ml
SO21201	Solanie Pro Lift Volume 3 Peptides Complex 30ml	3ml
SO23014	Solanie Hyaluron Plus Ultrasound Gel 500ml	6ml
SO21206	Solanie Pro Firm Recovering 3 Peptides Mask 100ml	6ml
SO34005	Solanie Alginate Botox Effect Anti wrinkle mask in jar 90 gr	9ml
SO11208	Solanie Peptide-In Booster Ceramid 24 Cream Plus 50ml	2ml
